

# Certification

Participants will be awarded a certificate stating their participation in the hands-on workshop.

## What is Unique about this workshop?

Following are some unique aspects of the workshop

The sessions will be very practical and can be implemented in the clinic by the participants from the same day

Hands-on sessions will be given for semen preparation and also for the actual insemination

Session notes will be very crisp and will help the participant utilize the learning immediately

Medico legal aspects will be covered in detail to ensure the participants are aware of the do's and don'ts

Participants will also get a set of sample consent forms that are based on the ICMR recommendations. This can be rebranded under the clinic's name and used immediately for being compliant

# Optimizing IUI Outcomes A Workshop

“ At GarbhaGudi, we have consistently **achieved very good success rates in IUI treatment** and we feel that this knowledge should be shared amongst the clinicians ”

“ Infertility is on the rise at an alarming rate and not everybody needs IVF treatment. Most can be treated with IUI procedure. IUI is a simple procedure with low cost and can be done at a clinic by a trained gynaecologist. The only caveat being the dismal IUI success rates of 14-17% worldwide.

If the success rates of IUI done at various clinics can be increased, so many families will be completed without having to spend large amounts or having to go through IVF cycles. This is all the more true for tier-2 and tier-3 cities since couples have to travel to larger cities for IVF treatment ”

Dr. Asha S Vijay  
Medical Director of GarbhaGudi

# Why should you attend this IUI workshop?

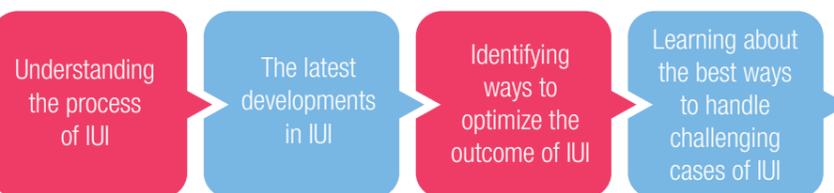

At GarbhaGudi, we have consistently achieved very good success rates in IUI treatment and we feel that this knowledge should be shared amongst the clinicians. We have made several process improvements in the last 7 years and this has yielded significantly high results. We have also worked and learnt from stalwarts like Dr. Chaithanya Nagori, Dr. Sonal Panchal and Dr. Mamata Deendayal on how they are able to achieve very high success rates in IUI. We have incorporated these knowledge into our standard operating procedures.

We have been conducting workshops at Bangalore and the feedback from the participants have been phenomenal. Many clinicians have been able to double their IUI success rates after the workshop.

## About the IUI Workshop

The focus of the workshop will be around

This event is scheduled to be a workshop and will be handled by the renowned infertility specialist Dr. Asha S Vijay and her team of clinicians and embryologists. It will involve several theoretical sessions coupled with case studies and live demonstration of certain key aspects of IUI treatment. The speakers will take the audience through the process that will help in increasing IUI success rates significantly.

## Expected outcome

The following are the benefits that the participants can expect by attending this workshop

- ▶ Understand the nuances of IUI treatment from the experts who are consistently able to achieve very good success rates in IUI
- ▶ Understand how to effectively use the ultrasound scanning machine for follicular monitoring and best time for insemination
- ▶ Get a deep understanding on the various intricacies of ovarian stimulation for IUI
- ▶ Deep dive into handling PCOS patients, poor responders and hyper responders
- ▶ Learn about the best forms of semen processing to ensure best IUI results
- ▶ Understand the importance of luteal support and how to effectively take care of this
- ▶ Learn the medico-legal aspects surrounding IUI, what you need to do to have a compliant practice

## Course Outline
